Waiver of Requirements for TOBY Regional Participants

The BOMA 360 Council voted in August 2016 to change the BOMA 360 program criteria to recognize all TOBY participants at the regional level as having achieved the minimum required points in all six sections of the BOMA 360 application –the prerequisites section is still a requirement. The \$300 discount off the BOMA 360 application fee is ONLY extended to regional TOBY **winners**.

Regional TOBY Industrial Building category participants will receive credit for Sections 1- 6. By receiving credit, we mean that you will not have to complete these sections and will automatically get the minimum required points for those sections.

All applicants are still required to demonstrate fulfillment of the BOMA 360 prerequisites and pay the associated application submission fees. Upon the renewal of your BOMA 360 designation in another three years, you will be required to re-submit your application **(this time completing it in full –unless participating in the most recent regional TOBY competition)** and pay the **full** application fees in effect at the time of renewal, just like all other BOMA 360 designees.

Step-by-Step Guide to Completing the BOMA 360 Application

As you work through the six sections of the application, you will be asked to describe and/or upload documentation to support your application. The application process will go more quickly and smoothly if you gather this information in advance. Most applications can be completed in one hour after all documentation has been collected. **Please Note: To upload more than one document for a single question, you must cut and paste all documents into a single document before uploading.**

We also recommend that you save all uploaded documents into a file for future reference. Once you complete and submit your application, you will not be able to access these documents in the BOMA 360 system. Also, when you renew your application, you will not be able to access documents from your original application in the BOMA 360 system.
